Organization’s Mission Statement: Our mission is to serve, connect, strengthen and champion philanthropy and the philanthropic infrastructure in the South. Our strategic priorities are to:

• Develop and support existing and emerging philanthropic leaders in the region.
• Cultivate the voice of philanthropy in the South.
• Build and strengthen the South’s philanthropic infrastructure.
• Practice organizational excellence and build capacity to achieve our vision.

Summary of organization’s primary programs and services: SECF is a professional membership association of over 330 grantmaking organizations in the southeast. Our members are family and independent foundations, corporate giving programs and community foundations. They represent more than 25 billion dollars of assets dedicated to serving charitable interests in such areas as education, human services and the environment. We provide professional development opportunities for grantmakers to learn more about the art of making good grants -- learning about their communities, engaging nonprofits and putting their considerable resources to work to make a better world. We do three things:

1. Provide conferences and programming where grantmakers can get educated and network with their peers. These include programs for family foundations, on investments, for new grantmakers, and for other types of foundations – corporate, community, etc. We help them get connected to each other and learn from best practices in the field.
2. Organize a “voice” for philanthropy in the southeast – via publications, online media and representation on a national level. Our goal is to build the capacity of foundations to speak at public policy tables, both at the state and federal levels.

3. Build the “philanthropic infrastructure” – help grantmakers organize around their common interests and create vehicles for them to align grantmaking and have more impact and more voice with their grant dollars.
