

Please plan to join us for
Emory University Center for Ethics Monthly Clinical Ethics Seminars

Rethinking Diagnostic Error: how technology can supplement clinical reasoning and improve outcomes

Victoria Vorholt

Student, Master of Arts in Bioethics Program,
Emory University

April 27

4:00 to 5:00 PM

**Center for Ethics, Seminar Room (162)
1531 Dickey Drive, Emory University Campus**

Please RSVP at ethics@emory.edu

Evolution has provided humans with cognitive systems that enable us to use short-cuts when making complex decisions. However, this apparatus is vulnerable to error, which in healthcare decision-making, can lead to serious adverse effects. This presentation will survey cutting edge technologies and safeguards that seek to reduce the frequency and magnitude of errors in medical decision-making without changing our cognitive strategies.

The Center's Clinical Ethics Seminars are held monthly on the 4th Thursday of every month (except November and December, which will be the 3rd Thursday).

Emory University Center for Ethics, 1531 Dickey Drive, Atlanta, GA 30322
