Organization’s Mission Statement:
Philanthropy Southeast strengthens Southern philanthropy, welcoming our members to listen, learn and collaborate on ideas and actions to help build an equitable, prosperous South.

Summary of organization’s primary programs and services:
Philanthropy Southeast (formerly Southeastern Council of Foundations) is the premier philanthropic network for courageous leaders, ideas and resources focused on the American South and U.S. Caribbean territories. We connect our members to experts, innovations and best practices in philanthropy while promoting peer-to-peer learning and leadership development. Our members comprise a diverse network of thinkers, problem-solvers and leaders who share their perspectives, ideas and insights in pursuit of a common goal: leveraging the power of effective, meaningful philanthropy to build a region where all people can participate and prosper.

Our members represent more than 300 philanthropic organizations and individuals of all sizes, including but not limited to family and independent foundations, corporate giving programs, community foundations, grantmaking public charities, and philanthropic-serving organizations. Our members represent more than 112 billion dollars in assets dedicated to serving charitable interests across the Southeast in such areas as education, health, human services and the environment. We provide resources, professional
development and networking opportunities for funders to learn more about best practices in grantmaking and philanthropic practice -- learning about their communities, engaging nonprofits and putting their considerable resources to work to make a better world.

We do this in several ways:

1. **Programs** – providing conferences and programming where grantmakers can learn and network with their peers. These include programs by constituency (e.g. family foundations), by role (e.g. CEOs), or for those who are new to grantmaking. We connect our members to each other and to experts in the field to help them learn about best and innovative practices in philanthropy.

2. **Public Policy** – serving as a “voice” for philanthropy in the Southeast – via publications, online media and representation on a national level. Our goal is to build the capacity of foundations to address relevant policy issues, both at the state and federal levels. Philanthropy Southeast maintains both a policy agenda and advocacy agenda to guide our work in this area.

3. **Connections** – building the philanthropic infrastructure to help grantmakers organize around their common interests and create vehicles for members to align grantmaking with impact and to utilize all forms of philanthropic capital to achieve their mission.
